

3M™ PELTOR™ CH-3 FLX2 Listen only Ex Hearing Protector

Product Description

The 3M™ PELTOR™ CH-3 FLX2 Listen only Ex Hearing Protector will bring hearing protection and communication in noisy environments into a new level of performance with newly designed speakers. The newly designed dual mold cup give a modern and slim look, along with a bright blue color to indicate Ex/IS certified design.

Key Features

- Bright blue color indicates Ex/IS certified design
- Slim cup design
- Detachable down lead connector for high flexibility
- Improved speaker efficiency to fit today's digital device
- Newly designed headband

Applications

The 3M™ PELTOR™ CH-3 FLX2 Listen only Hearing Protector can enhance communication in noisy environments. Suitable for workplaces that require Ex/S certified designed approved equipment, where the workers need to be connected to their 2-way handheld or fixed systems throughout the day to help facilitate frequent contacts with co-workers.

Standards and Approvals

Hereby, 3M Svenska AB declares that the product is in compliance with appropriate directives or regulations to fulfill the requirements for the CE and/or UKCA marking. The full text of the EU declaration of conformity is available at the following internet address: www.3M.com/PELTOR/DOC. A copy of the declaration of conformity and additional information required in the directives or regulations can also be obtained by contacting 3M in the country of purchase.

Technical data specifications

Model	Weight (FLX2 cable excl.)
Headband:	275g
Helmet attachment:	226g

Materials	
Attachment wire:	Stainless steel
Two-point fastener:	Acetal
Inline foam:	PVC foil and polyether foam
Attenuation cushion:	Polyether foam
Cup:	ABS plastic
FLX2 Connector:	6-pin, mini XLR
Speakers:	46 mm diameter, 230 Ohm +/-10%, SPL 107 +/- 2dB, 100-8000 Hz, IP54

Storage	
Operating temperature:	-20° C - +50° C
Recommended storage conditions:	-20° C - +50° C, <90% humidity
Recommended max. shelf life:	5 years

User limitation: Never modify or alter this product

3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations and guidance on how to adjust attenuation label value(s). In the absence of applicable regulations, it is recommended that the attenuation label value(s) be reduced to better estimate typical protection.
