

PELTOR[™]
Protection & Communication

COMHEAD[®]
PROTECTIVE EAR TO EAR COMMUNICATION

CH-3 Headset Black Line

When it matters the most...

The new CH-3 Headset will bring hearing protection and communication in noisy environments into a new level of performance. Critical communication has never been easier.

3M Science. Applied to life.[™]

New design for enhanced comfort during long hours of use

Newly designed dual mold cups give a modern and slim look together with the new black and grey colour for situations when you need to better blend in with your surroundings. Cup size is reduced with retained high attenuation and comfortable space for ears. The reduced size also contributes to less weight which can enhance comfort during long hours of use.

We have designed an all new headband with improved flexibility to better fit different types of head shapes. Headband cable is easily detachable from headband in need of replacement.

New headband with comfort
and flexibility to better fit different head shapes. Detachable cable for easy repair.

Newly designed dual mold cups,
emphasize the slim design and modern look.

Black Colour
When you need to be discreet and blend in.

Hearing Protection
Noise attenuating headset helps provide hearing protection in environments with potentially hazardous noise.

Efficient speakers
New efficient and frequency optimized speakers to match today's digital devices.

FLX2 accessory connector
Detachable down lead connector for high flexibility.

Designed and engineered for use in tough conditions

Specifically designed to operate reliably in harsh usage environments and conditions, such as shifting temperatures and wet or dusty conditions.

Excellent acoustical performance

To get excellent acoustical performance and audibility in noise, we designed a new earphone with improved efficiency and frequency optimization to match today's digital equipment. It will give you the utmost performance for your critical communication.

3M™ PELTOR™ CH-3 Headset

CH-3 Headset is the solution for easy Push-To-Talk (PTT) in rough and dirty environment where it's more convenient to have an external PTT on your chest to control your 2-way radio. Alternatively, you can connect into various types of vehicle intercom.
