

INSTALLING THE HEADSET:

1. Choose the right or left side based on your preference.

Insert the selected earshell into the two differently sized slots, then rotate the shell on the headset to lock it in place.

2. Choose one of the concha & eartips among the different sizes provided.

Plug concha into the top of the shell & make sure that the eartip is firmly attached.

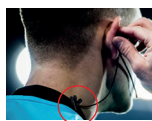

3. Place the headset in your ear.

Smooth push the eartip into your ear canal with a gentle rocking and twisting motion until a good seal is achieved.

4. Place the boom microphone in front of your mouth and attach the plastic clip.

Attach the plastic clip securely around the collar to reduce the risk of pulling out.

Important information: to prevent possible hearing damage, do not listen at high volume levels for long periods.

PACKAGE CONTENT:

CONNECTING/DISCONNECTING THE HEADSET:

Connect the connector into the socket located at the base or at the top of your VOKKERO® radio terminal.

Align the 2 red marks of the product and the connector.

To disconnect the headset, grasp and pull up the secure connection ring.

Do not turn the connector or pull the cable!

Do not pull the cable

Do not turn the connector

WARNING:

Always adjust the terminal's volume to the minimum level required to understand communications. Avoid listening at full volume over long periods of time, as it may result in permanent hearing loss.

Do not use this headset in circumstances where the inability to hear outside sounds may represent a danger to you or others.

DISPOSAL OF WASTE EQUIPMENT BY USERS IN PRIVATE HOUSEHOLDS IN THE EUROPEAN UNION

This headset should not be disposed of with your other household waste. It is your responsibility to dispose of your waste equipment separately from the municipal waste stream. The correct disposal of your old appliance will help to prevent potential negative consequences for the environment and human health.
